

Enigma Stick by Pascal Marc, Sugawara, & TCC Magic

FISM 2025 Italy: Completely Sold Out! One of the Most Talked-About Effects on Social Media!

Ranked #1 on Craig Petty's list of "Best Effects at FISM"

This is the Enigma Stick, exclusively licensed by Sugawara, originally created by Pascal Marc.

The magician displays a wooden stick and a wooden "handcuff," inviting the audience to freely examine both items. Holding the stick delicately between two fingers, the magician visibly and smoothly passes it through the solid wooden handcuff.

Important: All items are completely free of gimmicks and can be examined both before and after the performance.

The Enigma Stick is meticulously handcrafted from premium African Sapele wood, with rounded and polished edges. This ensures a superior tactile feel and flawless operation during your routine.

The entire set is compact and portable, allowing you to perform anytime, anywhere.

With its stunning visual effect, effortless handling, and ingenious design, you'll absolutely love the Enigma Stick!
