

Wild Z by Brent Geris and Koko Babochian

The Magic Apple presents **WILD Z** by Brent Geris and Koko Babochian

This is a new take on the classic WILD CARD! You show a stack of zombie killing HUMANS and ONE Zombie card. You lay all the cards down and every time the Zombie card touches a human, it changes in to a ZOMBIE! You are then left with a stack of Zombie cards! Beware - we will all be zombies soon!

You also get a small packet version of the Wild Card inspired by JP Vallarino created by Koko Babochian.

Both routines can be performed surrounded and it looks great on camera! Instant color changes can be done with the card as well if you just want some visual eye-candy!

We go over all the moves and sleights in the video explanations!

You'll get TWO complete set of the Zombie cards - Men and Male Zombies and also Women and Female Zombies! We also have thrown in some bonus cards to use for some other routines

With **WILD Z** the routines are endless, we teach some bonus ideas like the 2 Card Monte and Out of this World Ideas!

This is perfect for strolling and close up!

The cards were printed by the USPCC with air cushion Bicycle Backed card stock!

Perfect for all ages!
