

Ankh by ARK - Pokerdeck

Introducing our new masterpiece -- **Ankh Playing Cards**

What is eternity? The ancient Egyptians answered with a "handled cross."

They held Ankhs in burial, praying for resurrection and the afterlife, exploring infinite possibilities with endless life. Bathed in the brilliance of ancient Egyptian civilization, ARK suddenly found new inspiration.

Thus, the elusive eternal life sought by the ancient Egyptians, and the prosperity it nurtured, took shape after being washed by the waters of the Nile and the sands of time. A symbol, a scroll, a deck of cards, a civilization, an epic.

ARK brings a wealth of Egyptian myth-themed illustrations and a brand-new creative tuck case.

Pyramid Creative Tuck Case

The pyramid, as the most iconic element of Egypt, is not only representative of the country but also serves as a highly stable geometric structure in architecture. Taking inspiration from the triangular shape of the pyramid, we embarked on the creative design of the ARK Case, focusing on the triangular structure.

The case opens horizontally, and as illustrated in the diagram, the sides and top of the case unfold to create a large triangle. After six months of testing and optimization, we ultimately adopted a nested structure consisting of six layers to realize this design. Each layer features a dynamic structure with concealed sliding tracks and pivots, allowing the product to smoothly open and close without compromising the overall integrity of its appearance.

Standard Decks

- Limited to 3333 with unique serial numbers
- Egyptian themed design
- Pyramid creative tuck case
