

PITATA Prediction Keychain - Bühnentricks

We are excited to offer you something COOL today.

Working with Benke Smith, this is PITATA Prediction KeyChain.
Classical Never Dies, It Evolves.

Enjoy the trailer.

A Classic Reinvented for the Modern Mentalist

The Open Prediction effect has always been one of mentalism's most astonishing effects — and now, it evolves.

Following the success of the PITATA Hotel Prediction, we have joined forces with acclaimed creator Benke Smith to deliver a new powerful prediction device: the PITATA Prediction Keychain.

The Effect

You place a sleek keychain on the table, never touching it again. The spectator freely names a number, or word, or card, or ESP symbol, and when they pick up the keychain themselves... "printed" on the keyfob is the exact number they just named.

No switches. No sleight of hand. No compromise.

Powered by the New MysterSmith App, and so many possibilities.

The PITATA Prediction KeyChain isn't just for numbers. Paired with Benke's newly upgraded MysterSmith App, you can predict almost anything:

Any Number — even 5-6 digits.

Any Text — letters, names, locations, even handwritten fonts.

ESP Symbols — predict classic ESP symbols.

Any Playing Card — enhance your card set.

Any Time — display digital or analog time predictions.

Emoji - display one of the 12 predefined emojis

Multiple Input Methods

Discreetly control your predictions via the App or our impression devices.

Benke is continually adding new input. Options like Calculator Screen input, Lock Screen input, and more, will be available in the future.

IoT Integration

Seamless integration with PITATA's IoT ecosystem means you can control the Keychain via various devices, achieving covert inputs offering limitless possibilities for creative, hands-free mentalism.

Technology & Design

No charging needed: A replaceable button battery powers 3,500 screen refreshes.

Stable Bluetooth with a direct connection range over 10 meters.

Premium craftsmanship: Real carbon fiber surface, CNC anodized aluminum frame — a stylish accessory you'll be proud to carry.

Instant display — it takes just around 3 seconds to display the picture on the keychain after sending.

What's Included

PITATA Prediction KeyChain × 1

Accessories Pack × 1

MysterSmith App × 1
