

Key to Success by Prasanth Edamana & TCC Magic

Five keys are presented, and a spectator freely selects one at random. They test each key on the lock, yet none work... except the very key they originally chose. To heighten the impossibility, the magician reveals a prediction that perfectly matches the number of the chosen key.

The lock crafted from brass is deliberately designed with a simple yet high-quality finish. The prediction card not only reveals the final outcome but also helps us perform all operations with ease and proficiency. Additionally, it's made from high-quality, thickened PVC material, ensuring durability and resistance to the test of time.

This effect is deceptively simple, requiring almost no sleight of hand. The spectator's choice is completely free, and after just a little practice, you'll perform it with total confidence.

Features:

- Incredibly easy to perform, with simple handling
- Multiple phases, building suspense step by step
- Premium craftsmanship, durable, and long-lasting
- No force, the spectator has a completely free choice

What's Included

:

- Brass lock & keys
- Red envelope
- Prediction card
