

FULTON'S OCTOBER V2 PLAYING CARDS FIRST EDITION

After 12 years Artist Steven Noble reunited with Brad Fulton to create the ultimate follow up to the iconic deck FULTONS OCTOBER. This is the long awaited and ALL NEW sequel.

These were illustrated by hand using scratchboards by the master himself--Steven Noble. October is one of the most iconic decks of its generation--known for its fun and frightening take on the afterlife and the Halloween Season.

This first edition of **October v2** features a striking black-bordered card back featuring our favorite Jack-O-Lantern prominently displayed holding his old friends. Every number and letter on the number cards was hand illustrated by Noble using a bone-like new Fulton Font. This is the best the October Universe has ever looked.

Tuck box features custom artwork and deep embossing. Box interior features an all new cemetery scene as a tribute to Fulton's longtime friend, The Candyman Himself Tony Todd. Can you see what he's up to in the afterlife?

Printed in China on Premium Cardistry thin stock for maximum playability and durability.
