

Nicholas Lawrence Presents The Final Cut

THE CARDS JUST FADE AWAY... Utilizing a BRAND NEW never before seen method!!

Here's what happens...

Have ANY card chosen and shuffled into the deck - No controls, No forces.

After a few casual cuts, give the deck a shake, spin, or drop... and suddenly, half the cards vanish

Cleanly and Visually!

THEY'RE GONE.

Show the remaining half of the deck from every angle 360° ... Even Underneath!

There is nothing to hide.

Then, immediately repeat the effect, leaving just one single card remaining... No, really... there are no hidden cards.

There is genuinely only one card left.

IT'S THEIR SIGNED CARD!

Use The Final Cut gimmick with any deck right out of the box! You can legitimately shuffle the deck, have a card freely selected and lost in the pack (No Control) all while the gimmick hides in plain sight!! No need to load the gimmick mid-routine. Perform effects like Ambitious Card, Card to Mouth, and many other classics leading up to your final moment - a fair and gradual vanish of the entire deck, inches from their face, leaving behind only one card - their freely chosen, signed card...

This was conceptualized over a decade ago!

Since then, I've refined both the method and the routine to get to what you see

here, pushing the boundaries of what's possible... Compared to other methods, with The Final Cut you can have your gimmick in the deck and perform other effects before your finale...also, there isn't ANY knacky moves...The vanishing sequence is very intuitive, you will spend less time mastering the technique leaving you more time to focus on the presentation!

You will absolutely LOVE this.

More importantly, you will USE it...

- No forces required
- Easy to do
- Durable gimmick design
- No breaks, automatic control
- End completely clean
- Multiple handlings and visuals
- 360° performance possible
- Beginner to professional
- Great for close-up and parlor
- Comedy bag routine included
- Perform anytime, anywhere
- No DIY required

The most realistic, natural, and convincing deck vanish currently on the market. Extremely practical and designed for the everyday magician. It doesn't just look impossible - it feels like real magic.

WHAT'S IN THE BOX?

1 x TFC gimmick

1 x 1 hour tutorial

- No elastics, magnets or fragile materials
- No setup required
- No black art
- No clothing restrictions
- No jacket required

As mentioned, multiple handlings are taught, making this effect accessible to those who don't like palming, forcing, or controlling cards. Yes, some routines include these techniques - but they're absolutely NOT required.

COMEDY BAG ROUTINE

One of my favorite ideas taught is based off The Vanishing Bottle!! Imagine holding a deck of cards inside a paper bag-giving them a shake and when you remove the deck it now has less cards...Then again, this time only removing only 1 card. The rest of the cards have "vanished" ... It's such a funny moment knowing your audience isn't fooled and truly believes they know exactly what has happened...(You simply dropped the cards into the bag) but to their surprise the bag is completely empty!!

Forget everything you know about deck vanishes.

The Final Cut is here

It's sleek, practical, and mind-blowingly visual.

No hype. Just results.

This is the deck vanish you've been waiting for...
