

THE PENDULUM by Tony Anverdi

The **Spirit Pendulum** allows you to exchange the chime of a bell for the silent mystery of movement. It brings a new dimension to your performance one that feels subtle, surreal, and spellbinding.

With no visible cause, the pendulum begins to sway... mysteriously and deliberately... until it reveals a chosen card, thought, or secret known only to the participant. Its motion is smooth, silent, and hauntingly precise - the kind of eerie elegance that lingers long after the performance ends.

Perfect for mentalism routines or intimate s ances, the **Spirit Pendulum** evokes the sense of an invisible presence at work not loud, but deeply felt. Crafted with the same precision and reliability as all Anverdi creations, it's a powerful tool for storytellers who favor subtlety over spectacle.

Let the pendulum speak - and let your audience feel the presence of something beyond.
