

Magic Drawer Box (Hand Painted) by Matthew Hart

This **Magic Illusion Box** is a clever, compact prop designed to bring a touch of mystery to any performance. Each piece is carefully hand-painted by me, making every box a one-of-a-kind creation. With a simple hidden mechanism, the box allows you to make small objects vanish and reappear, creating moments of surprise and wonder.

By placing or removing your pinky finger in the concealed control slot beneath the box, you can show it completely empty, close it, then open it again to reveal a hidden object inside. No electronics, magnets, or batteries—just classic sleight-of-hand brought to life in a handmade design. Perfect for magicians, hobbyists, educators, or anyone who enjoys captivating their audience.

Key Features

- Hand-Painted Finish - Each box is individually painted, ensuring no two are alike.
