

TWINS by Murphy's Magic

Step into the world of magical storytelling at its finest-where plot, surprise, and visual wonder meet in one of the most powerful four-card effects ever created.

From the legendary mind of Brother John Hamman, **Twins** isn't just a card trick-it's a miniature drama that unfolds in your hands. You begin by introducing two sets of twins, identical in every way... and that's when the magic kicks in.

Cards mysteriously change... Identities switch... and the story comes to life before your spectators' eyes.

Each transformation matches the tale being told, drawing your audience deeper into this charming and impossible narrative.

By the end, everything is examinable-**no gimmicks, no switches, no sleight of hand**.

Just pure, elegant construction and masterful deception.

- Visual magic that tells an enthralling story
- Perfect for close-up, walk-around, or casual performance
- Beginner-friendly, pro-worthy

Whether you're just starting out or adding a timeless gem to your professional set, **Twins** is a go-to miracle that fits in your pocket-and lives in your audience's memory.
