

Perfect Water Glass by Henry Harrius

PRODUCING LIQUID FINALLY MADE EASY!

Producing a drink is an impactful opener for any parlor or stage act. However, it can cause significant stress for the performer. It is uncomfortable to conceal, and the glass is fragile, making it easy to break and potentially ruining the entire show. Additionally, any big movements can lead to spillage, which would be a disaster.

That's why we are introducing the **Perfect Water Glass** and **Perfect Champagne Glass**. Henry developed these mainly because HE NEEDED THEM for his professional shows. With these two glasses, you can now produce drinks at any moment during your performance with no pressure at all! Feel free to have your hands wide open, jump around, or even do a backflip (if you can) before producing the drink!

In the tutorial, Henry will share everything he knows on the topic and offering professional advice. Whether you are a beginner or a working professional, this will be the PERFECT glass for you. Here are several benefits:

- Realistic plastic glass
- 100% leak-proof design
- Produce a drink at any moment in your show
- Multiple routines taught in detail
- Detailed tutorial on how to mix the liquid
- Professional advice sharing
- Combine with RD360 and RD Shell
- Combine with any drink productions you are already doing!

Q: What is included?

- Perfect Champagne Glass / Perfect Water Glass
- Leak-proof lid
- Paper bag
- Full video instructions

NOTE:

*Purchasing the Perfect Water Glass will come with free simulated ice cubes.

*With the Perfect Water Glass, you can perform everything in the tutorial without a holder.

*With the Perfect Champagne Glass, some routines may require a holder, which is not included.
