

MIND PREDICTION BOARD by Apprentice Magic

The **Prediction Board** is one of the strongest, easiest-to-learn mentalism effects in all of magic!

You begin by writing three predictions, sealing them in plain view. Then, three spectators freely name anything - a number, a place, or even a random thought.

One by one, you open the flaps... and each prediction is a perfect match!

This mind-blowing trick is totally self-working. You'll look like a real mentalist from your very first performance.

No sleight of hand. No electronics. The Prediction Board does the work - you get the applause.

This miracle can be repeated with different spectators and different answers! Everything can be inspected. Everything looks fair.
