

Don't Blink by Yvan Garmy

Don't Blink

is a modern, ultra-visual take on the classic paper tear.

You tear a magazine into eight pieces, show them clearly, and with one quick shake, the pages restore, right before everyone's eyes. The restoration actually *happens visibly* before you even unfold the packet. Yvan Garmy's clever gimmick does all the heavy lifting-if you can tear paper, you can perform this. Whether you're doing close-up, parlor, or full stage shows, this effect hits every time.

Don't Blink can also be customized in minutes. Use any magazine or brochure you like to make it fit your theme, audience, or event. Adding that personal touch that will make your performance unforgettable.

Here's what you get:

- A detailed explanation video with multiple angles, performance tips, and how to make it fit your audience
