

Candy Puncher by Wonder Maker

Candy Puncher

is a fresh twist on a classic magic effect!

Based on the famous "Pen Through Bill" illusion, this festive prop adds color and fun to your performance. The gimmick is designed to look exactly like a Christmas candy stick, cleverly hiding the secret mechanism that creates the illusion of piercing through a bill - or any piece of paper - without causing any damage.

Perfect for children's shows, Christmas events, and New Year's parties, Candy Puncher brings brightness and originality to your act, making every performance more magical and memorable.

Set includes:

- **1 gimmicked candy**
- **1 regular candy (can be handed out for inspection)**
