

T-1000 Plus: Silver Edition by Nemo and Hanson Chien

Two bracelets linking through each other.

It's the modern version of linking rings you can wear and use every day - your favorite linking trick, upgraded in stainless steel.

No sleights, no weird grips, no cover - pull it straight through. It also works with rubber bands, rings, and even borrowed bracelets - now with a brand-new handling that lets you perform with normal bracelets too!

The greatest EDC of all time -

T-1000 Plus: Silver Edition.

Why it's the ultimate EDC

- No angle issues
- Switch case included
- 316L luxury stainless steel
- Easy to wear. Ready to carry.
- Perfect for social media videos

Stainless. Seamless. Stunning.
