

Colors (Blue) by Marco Markiewicz

Get ready to blow your spectators' minds with an effect as visual as it is devastating.

COLOR'S by Marco Markiewicz reinvents a timeless classic:

the spectator's signed card visibly changes color right before their eyes... and can be immediately examined!

Effect:

- You introduce a red deck, clearly showing all the backs and faces.
- A spectator freely selects a card and signs it.
- The card is lost back into the deck.
- You spread the cards again... snap your fingers - and one card is now blue!
- You remove it and hand it straight to the spectator:
It's their signed card!
An impossible, instant, and ultra-clean transformation.

Key points:

- Ultra visual - the magic happens in a split second.
- No suspicious moves.
- The card is genuinely signed and fully examinable.
- Easy to perform - direct, powerful, and perfect for close-up.
- Comes ready to use with the gimmick included.
