

Cherry Casino House Deck True Black (Black Hawk) by Pure Imagination Projects - Pokerdeck

Based on the vintage Las Vegas casino playing cards, **Cherry Casino House Deck Playing Cards True Black (Black Hawk)** are even more exclusive.

LIMITED to only 500 decks, the True Black (Black Hawk) Cherry Casino House Deck is truly collectable and limited.

Includes a specially designed NUMBERED seal.

Never to be reprinted, the True Black (Black Hawk) House Decks are a delight to behold.

Like Jerry's Nuggets or Wynns, the Cherries back design was created by Sam Devins to incorporate a simple, symmetrical back, perfect for card games and magic performances alike.

The House Deck tuck case carries on this simplicity by removing the white shoosh and embossing the delightful cherries in the corner.

The cards look as beautiful as they handle, and we cannot wait to get them into your hands!
