

Boston Box - 2 Euro Size

EFFECT 1 - The magician places one or more coins into the box and closes it with the lid. After placing it on the back of their hand, they give a small tap on the lid—and in an instant, the coins fall onto the table, having passed through both the box and the hand. The box is shown to be empty!

EFFECT 2 - The magician places one or more coins into the box and closes it. They place the box on the table and position one hand underneath. In an instant, the coins penetrate the box and the table, ending up in the magician's hand. The box is shown to be empty!

The effects described above are just examples of the potential of this box. Many other presentations, ideas, techniques, and routines can be easily found in magic books and videos.

The Boston Box is a special variation of the Okito Box. Unlike the standard version, it allows the magician to show the coins still inside the box right up until the moment they penetrate the table or the back of the hand.

- Made of brass.
- With this fantastic accessory, you can perform simple or complex routines depending on your skill level.
- The coins used (not included) must be slightly smaller in diameter than the box. 2 Euro coins are ideal.
- The routines described above are just examples of the box's capabilities. Many other presentations, ideas, and techniques can be easily found in magic books and videos.
