

## Tora Coin Bucket 3 Times

The magician shows an empty ice bucket. He then mimes catching a coin and throwing it in inside the bucket... unbelievably the coin is heard to clink inside the bucket from which the magician takes it out. This is repeated various times until 8 coins have magically appeared. The magician then puts a lid on the Champaign bucket. When he takes it off, the bucket is seen to be overflowing with coins! He puts the lid back on. This time when he takes it off, the champagne bucket is full of banknotes!
