

PITATA LevitiDeck

The PITATA LevitiDeck - Timeless Levitation, In Your Hands

At first glance, it's simply a deck of cards and its case. But place the deck on top of the box... and it floats. No strings. No wires. No visible support. Just pure, impossible levitation.

Enjoy the trailer now and experience the magic of levitation — reengineered by PITATA

What It Does

From the ancient dreams of flight to the stagecraft of modern illusion, magicians have always sought to defy gravity. The PITATA LevitiDeck transforms that dream into reality — right before your eyes.

Powered by precision-engineered electromagnetic technology, the LevitiDeck conceals a complete levitation system within the size of a standard deck. The card case houses the electromagnetic module and control circuit, while the deck itself contains a specially calibrated magnet — allowing it to levitate gracefully for up to 2 hours on a single charge.

Key Features

The PITATA LevitiDeck is crafted for performance, practicality, and beauty:

- Fully self-contained, all-in-one design - no external wires or cords.
- Compact and realistic design - nearly identical in size to a normal deck and case.
- Long-Lasting rechargeable battery - a single charge provides up to 2 hours of continuous levitation..
- Doubles as a magical display or decoration - a stunning piece that embodies the spirit of illusion.

Open or end your stage or close-up routine with an impossible visual that commands silence and awe. Or use it as a mesmerizing display: Place it on your desk or shelf as a stunning conversation piece.

The PITATA LevitiDeck is not just a trick - it's a moment of wonder, suspended in midair.
