

ImpossiBox by Bacon Magic and Wang Zhe

ImpossiBox

- The Card Case Reimagined At first glance, it's just an ordinary card case. But with ImpossiBox, it becomes a magician's ultimate treasure chest-able to produce coins, credit cards, magic wands, even a drink... and still hold a full deck of cards inside!

Created by Wang Zhe and produced by Bacon Magic, ImpossiBox is the perfect opener: small, practical, and easy to carry, yet capable of delivering huge surprises. Its clever hidden gimmick works like a "dimensional pocket," letting you load coins, props, or even liquid without detection.

The complete set includes a custom coin, a bank card, three collapsible wands, and the ingenious gimmick. Along with detailed video instructions, you'll be ready to amaze in no time.

Give your card case a new life. With ImpossiBox, astonishment comes from the smallest of places.
