

## No Write Sharpie Magnum by Alan Wong

Only magicians will want to buy a Sharpie that doesn't write and know why and what they want to do with it. The stage size **No Write Sharpie Magnum** is now available.

This is not a dry out Sharpie that you left under the sun, or put nail polish on the tip so it doesn't write. If you have done that you know it will still leave a mark as you write with it.

The **No Write Sharpie Magnum** is the stage version Sharpie you can use with a large drawing pad. It is a real Sharpie Magnum but has a rubber chisel pen tip that looks like the real one and feel smooth on paper. You can allow a spectator to randomly mark on any printed matter without looking at it and seemingly leave a random mark for a chosen object you want them to choose.

Contains ONE **No Write Sharpie Magnum** only (use your own normal Sharpie Magnum), plus ideas for using it with lottery tickets, bingo cards and cross word puzzles (same video instructions for normal No Write Sharpie, just different size Sharpie).

Pack Small and Play Big!
