

PUNCTURE by Alex Linian & Murphy's Magic

PUNCTURE

! The Ultimate pen through effect!

You borrow a coin-yes, their coin. You hold it delicately at your fingertips, no funny moves, no distractions... and then it happens:

You drive a pen straight through solid metal!

Right before their eyes, the pen penetrates the borrowed quarter with a sickeningly perfect pop, leaving the borrowed coin shish-kebabbed and dangling like some kind of coin-on-a-stick miracle.

"NO WAY. THAT'S MY COIN!"

"How the #@*! did that just happen?"

"Can I see that!?"

YES. They can.

The coin and pen are immediately handed out. They're holding the evidence of a miracle-and they won't be able to stop talking about it.

Then, you remove the coin from the pen and witness their shock when the coin has virtually healed itself!

This is more than a trick. It's a reputation maker. A jaw-dropper. A moment of pure, undeniable impossibility.
