

DANCING NEON (Lightweight WHITE) by Sorcier Magic

We present an ultra-light and easy-to-handle neon. Start by presenting a white neon that begins to levitate in your hands. At your nod the neon lights, up and starts dancing around you and under the full control of your hands. You will perform incredible and inexplicable evolutions for the public. It works with a single 12-volt battery (A23) and when turned on it is very bright.

Made with special materials, it weighs only a few grams and has a length of 70 centimeters, the diameter is approximately 2.30 cm.

Battery not included.

Attached video instructions.
