

Bicycle Gypsy Witch by US Playing Card - Pokerdeck

This refreshed design of our classic Gypsy Witch playing cards is just in time for fall.

The story goes that Anne Marie Le Normand was a celebrated French mystic who left an extraordinary imprint on divination. Her system of discerning the past, present, and future by means of cards was celebrated amongst spiritualists, and we have reproduced the concepts here, and have arranged the game so that any person can lay the cards in proper position and proceed with a reading.

Alternatively, any traditional playing card game may also be played with these cards.
