

Christmas Tree Paddle Set by HP Creations & Ed Alonzo

HP Creations and Ed Alonzo

proudly presents the Christmas Tree Paddle Set, our festive take on the classic paddle effect. Paddle tricks have been a cornerstone of close-up magic for generations, loved for their simplicity, portability, and visual punch. We couldn't resist bringing a bit of Christmas spirit to this timeless favorite!

This limited-edition set includes two paddles, allowing for two charmingly visual effects that can be performed separately or combined into one flowing holiday routine.

Effect Part 1:

You show your audience a simple Christmas tree - plain except for a golden star on top. With a little sprinkle of magic (or maybe just some holiday cheer), the same tree is suddenly decorated with gold ribbon and six colorful gem ornaments!

Effect Part 2:

After a simple switch, you show the gem-covered tree once more. A spectator freely names a number between one and six. You count the ornaments to their chosen number - and as if by magic, all of the ornaments transform into that exact color!

A perfect blend of visual magic, easy handling, and seasonal charm, this set is ideal for close-up performances, walk-around shows, or even Christmas parties. Compact, colorful, and fun for all ages - this is holiday magic that fits right in your pocket.

Want to see Ed's original idea? You can see it performed on the "Masters of Illusion" Holiday Special!
