

## Flash Lites by Jim Sherman

Tricks and gags with flash paper are becoming increasingly popular.

Once you have used flash paper or flash bills in a trick you will understand why.

The unexpected flash of flame, no matter how it is used, adds a dramatic touch or "punch" to any trick or gag.

This is a great bargain for some GOOD Quality Magic.

This book is softbound and is 32 pages.

**We recommend working with flash products to experienced people over the age of 18years. Since the use of flash products is outside of our control, we do not assume any liability for their use or misuse.**
