

Homing Cartoon (Christmas) by Undermagic

The "Homing Card" created by Francis Carlyle and popularized by Fred Kaps, is perhaps one of the most popular magic routines among magicians.

What if you could incorporate it into your children's magic shows? At Undermagic we have created some fantastic "Homing Card" sets printed in jumbo size.

Each set includes everything you need and the cards have been treated with our special rough spray so that the handling is fully automatic. Forget about complicated handling and dedicate yourself to enjoying and exciting the children with this fun routine.

The illustrations have been designed to be very recognizable on stage, and the colors are vibrant and attractive.

Ideas:

* The Christmas set is perfect for your Christmas shows and will give you the opportunity to tell what your favorite gifts are, or better yet, for the children to reveal what they have asked the kings for. Parents will thank you!
