

Shifted by Smagic Productions

Shifted

reality just changed hands. A watch doesn't vanish - it moves.

From one wrist to the other. Instantly. No cover. No switch. No explanation. You wear it all day like a normal accessory, yet at any moment you can break logic right in front of your spectators.

Shifted is engineered for real-world performance - angle-proof, practical, and always ready. Every detail has been refined for simplicity and impact.

You don't hide. You don't hesitate. You just shift reality.
