

MerlinDini Cards by Marc Celiandre

If you're looking to add pure, modern, mind-melting magic to your repertoire, let me introduce you to something truly special: Merlindini Cards — a reinvention of a timeless classic, rebuilt for today's performers.

The Impossible, Reinvented

A spectator freely chooses a card from a clean, openly spread deck. They see it. They confirm it. They lock it in their mind.

And then — with no suspicious moves, no visible manipulation — the card simply vanishes. It leaves the deck as if it evaporated into thin air.

A Miracle That Travels Across Decks, Objects... Even Realities

With Merlindini Cards, the card doesn't just disappear — it travels. You decide where it reappears:

- Back inside the same deck.
- In a sealed envelope.
- Inside a closed wallet.
- Under a glass.
- In the spectator's own hands.
- In a forgotten pocket.
- Or anywhere your imagination wants the story to go.

The system is designed to be versatile, reliable, and deceptively simple, giving you maximum freedom in your presentation.

Key Features

Presentation Ideas

The Traveling Card: vanishes from Deck A, appears in Deck B.

Wallet Miracle: the card materializes in a zipped compartment.

Time-Travel Theme: a card that defies chronology.

The core remains the same: a fair choice, an impossible disappearance, a deceptive moment of freedom — and a reappearance exactly where no one expects it.

A compact miracle. Direct. Memorable. Astonishing.

“A very clever use of a solid principle to create a powerful effect. Simple, easy, and high-impact — this trick will definitely earn its place in your close-up repertoire.” — Hugues Protat

“A simple variation on an old gaffed card, but so much more practical! You’ll use it, that’s for sure.” — Gaëtan Bloom

“Genius work behind this new and incredibly well-thought-out effect.” — Damien Vappereau
