

Moon (Pink) - Pokerdeck

Several years ago, we launched a special deck for cardistry called MOON. Due to its avant-garde design and cool concept, it sold out within just a few days. After that, Moon only existed in the legends of cardistry enthusiasts... Until NOW! We have decided to launch a new color version - pink!

Adopting the specially formulated ink and special paper stock from KING STAR factory, it brings brand-new vitality to your cardistry.
