In the Collector's Edition, we've completely reimagined the card box, inner box, card back, 4A, and joker cards to align more closely with Nezha's childhood imagery. To enhance its collectible value, gilded edges have been added for a luxurious touch.

The Collector's box body features intricate multi-layer paper carving and hollowing techniques, beautifully recreating the iconic scene of Little Nezha as the embodiment of a lotus flower, making it a true masterpiece for enthusiasts and collectors.
