

Shining Crochet Balls (Royal Blue) by JT Magic

Introducing **Shining Crochet Balls**

Precision Crafted for the Art of Cups and Balls

In the world of magic, the right tools elevate the performance. And in the Cups and Balls routine, the quality of the balls is nothing less than essential.

Shining Crochet Balls are designed with both the audience and the performer in mind.

From visibility to handling, from texture to balance, every detail has been engineered to enhance clarity, comfort, and control.

Crafted with Intention

Each ball is individually hand-crocheted using premium French metallic thread, giving it a subtle shimmer that makes every vanish, transit, and reproduction crystal clear even from a distance.

The size has been precisely tested to sit naturally in a finger palm without distorting the hand shape.

Featuring our proprietary Shock-Moderating Rubber core -heavy enough for smooth manipulation, firm enough to stay exactly where you place it. No unnecessary bouncing, no unpredictable movement.

The result: a set of balls that makes every sequence in the Cups and Balls routine feel fluid, controlled, and effortless.

Key Features

- **Enhanced Visibility** - Metallic thread adds a refined shine, making the balls more noticeable and amplifying onstage impact.
- **Perfect Handling** - Optimized size and weight for natural palming and comfortable sleight-of-hand work.
- **Controlled Elasticity** - Rubber core with balanced bounce prevents erratic bounce and ensures consistent positioning.

- **Handcrafted Excellence** - Every ball is made by hand, delivering premium craftsmanship and a luxurious tactile feel.
