PITATA Palm Remote

Control your PITATA devices-like the PITATA Inversion Board, Smart Printer, and Prediction Table-with the sleek and intuitive **PITATA Palm Remote**. Designed for effortless input, this compact remote connects seamlessly via the PITATA app, putting powerful functionality right in the palm of your hand.

Key Features:

- Easy App Integration - Syncs automatically with the PITATA app for instant control.
- Vibration Feedback - Multi-vibration feedback system designed from the perspective of a magician - every step you press, including input, cancel, send, accept success, and even accidental disconnection and reconnection, there are corresponding vibration prompts that allow you to fully grasp and avoid any surprises that may arise during your performance.
- Compatibility - Works flawlessly with PITATA's Inversion Board, Smart Printer, and more.
- Versatile Input Options - Input numbers, text, and even generate AI-powered images (OpenAI service required).

What You Can Do:

- Clock Image - Input four-digit time codes with a tap.
- Magic Square - Enter two-digit numbers for quick results.
- Preset Drawings & Text - Access stored designs and messages via index numbers.
- Card Image - Input three-digit codes to display card suits and values.
- Lottery Number (Printer)

Bonus:
