Dream Seeking Collectors Set by King Star - Pokerdeck

Every adult was once a child ---- it's just that few people remember. The "Dream seeking Deck" series was born. In the choice of design style, we abandoned the previous style and chose "pixel", a style that is also closely related to our childhood to paint. The pixel-style classic games that were popular at the end of the last century, together with beautiful fairy tales, jointly carry our beautiful childhood memories. Here, may each of us be our own prince/princess at last.

Using 280G black core paper imported from Japan.

The inner and outer card boxes are made of special laser paper and bronzing and matte lamination technology, which can create a fantastic star-shimmering effect when turned in the hand.

Fully customized pixel style card cover, the pattern avatar of the card adopts the Q-version pixel image of the classic fairy tale characters.

Symmetrical two-way swirl, the back design of the card is set off with the white border pattern, which makes the card more beautiful when it is used.

Collectors Set contains 2 different deck : Little Red Riding Hoodand Rapunzel.
