

## **Signish by Victor Voitko (Red)**

### **Signish**

#### **- The Signature Inside the Marker!**

**Looking for a trick that literally leaves a mark? Meet Signish - a jaw-dropping, laugh-triggering piece of modern magic.**

**Here's what happens:**

**A spectator freely chooses a card from a regular deck (yes, really). They sign it with a real marker - and keep that exact marker in their own hands the whole time. The signed card goes back into the deck... and vanishes in an instant.**

**Now for the impossible twist: the spectator opens the very same marker they used to sign the card - and inside it... is their own signed card. Their mind? Officially erased.**

**Easy setup - ready to perform in minutes.**

- **Instant reset - perform it again right away.**
- **No complicated sleights - just smooth, powerful magic.**

**Perfect for close-up, walk-around, or street performances. Signish is clean, funny, and unforgettable - the kind of magic that makes people question reality (and their stationery).**

**Because in Signish, the signature doesn't just disappear - it moves into the marker that made it!**

### **Specifications:**
