

## Bicycle - Poker deck - Black

Introducing the Bicycle deck with a black back... but with a great twist! For the first time, thanks to Vincenzo Di Fatta, this amazing deck features a black back paired with the classic Rider Back box. It's a unique combination that brings together the elegance of black with the timeless tradition of the Rider Back: a true collector's item and a perfect tool for any magician.

You can use the deck both as a standard deck and for color change effects. Naturally, the box is black too. The quality of the cards is the usual top-notch Bicycle standard; the poker-sized deck includes 3 additional special cards: one has a blank face, and the other two depict the Queen of Hearts gradually fading away.
