

Eldra - Pokerdeck

Representing the infinite possibilities of cardistry, Eldra is an Eldritch being from another universe. She has travelled to our plane to spread the art of cardistry and claims that the end of the world is upon us... unless you learn cardistry?!

Eldra Playing Cards are lovingly illustrated by Singapore-based artist Oranmau and conceptualized by Cardist Jaspas Deck.

The faces feature standard Jaspas Deck faces with a customized Ace of Spades and 2 full-art Jokers.
