

Pocket (Red) by Marco Markiewicz

Discover the brand-new effect by Marco Markiewicz: **POCKET**

With **POCKET**, push the boundaries of the impossible.

You remove an ordinary deck of cards, a spectator freely selects any card, signs it, and you clearly lose it back into the deck. Without hesitation, you immediately place all the cards back into the card box.

That's when the real magic begins.

You then explain that a sealed envelope, closed with a sticker, has been resting in your back pocket from the very beginning.

With your hands completely empty, you slowly remove the envelope and open it without any manipulation...

Inside is the spectator's signed card!

An ultra-clean, direct, and devastating effect that leaves audiences speechless.

- Extremely intelligent method
- Carefully handmade gimmick
- Strong, memorable impact
- Perfect for close-up and professional performances
