

Playing Card Organizer by JT Magic

As magicians, we accumulate cards- regular decks, gimmicked decks, duplicates, variations, collectibles.

Sooner or later, chaos takes over.

Loose decks on the table.

Messy drawers.

Crowded shelves.

A prop case where you can't remember which deck is which.

This card organizer was designed to solve that exact problem.

Designed for real decks

- 12 perfectly sized compartments - stores one full brick of cards neatly and securely
- Each slot is precision-fitted to hold one poker-sized deck placed horizontally

No wasted space.No squeezing.No guessing.One Box. Multiple Uses.

- On the Table

No more scattered decks mid-practice. Grab a deck, work, and put it back in seconds.

- In the Drawer

Turn messy piles into a clean, professional library of decks.

The Label System Changes Everything

We didn't stop at storage.

This organizer includes a label system designed specifically for it. Instead of opening deck after deck to find the right gimmick, you know exactly what is where- at a glance.

- Perfectly matched to the box
- Clean, readable, and practical
- Built for magicians who work, not guess

Once you use it, you'll never go back.

Storage Meets Display

This isn't a box you hide in a drawer.

Its clean structure also makes it ideal for displaying decks- in studios, shops, or personal collections.

More Than Storage

This is not just card storage.

It's a system.

Built for magicians who value order, efficiency, and clarity. Because when everything has its place, your mind is free to focus on the magic.
