

## John Bannon's Quintastic Packet Trick

Bigblindmedia presents **John Bannon's Quintastic**

A packet trick where every choice is their ONLY choice! (BBM627)

**John Bannon's Quintastic** is possibly the PERFECT pocket card trick. Using just the small set of supplied cards, it combines mentalism and card magic in the most commercial way possible, and will decimate any audience you unleash it on. It just looks SO fair, it almost seems like real magic!

Revealing a small packet of random face-up playing cards, you ask your spectator to name one. Whatever they say (no force, no equivoque, no switch) you reveal that it is the only one with a different colored back.

So far, so impossible. But then you ask what their second choice would have been. WHATEVER they say, you remove it to show that impossibly it also now has a completely different back design to the rest of the cards!

While your audience are reeling from this you casually tell them that 'regardless of what they picked - you had them covered', and you flip the remainder of the packet over to reveal that now ALL the cards have different backs.

You end totally clean, so your shell-shocked spectator's are free to examine the cards to their hearts content.

**Quintastic** is constructed in typical, time-honored 'John-Bannon-fashion' - with epic precision. The elegant handling removes anything extraneous and makes this routine beautifully streamlined and easy to perform. Get it now and perform it forever!
