

Bicycle - Metallic Deck Ruby

Step into the world of Bicycle Metallic Ruby, a deck of cards where classic design meets exception.

Inspired by the brilliance of a precious gemstone, the Ruby, this deck pays tribute to the timeless elegance of Bicycle playing cards while adding a distinctly luxurious dimension. At first glance, it remains true to the iconic codes of a standard deck. But when exposed to light, every detail reveals its true nature.

Thanks to metallic ink printing, the design elements come to life with subtle, deep reflections, evoking the richness and nobility of the ruby. The metallic red catches the light, offering a sophisticated, refined, almost jewelry-like finish—never excessive, always elegant.

Designed with magicians in mind, Bicycle Metallic Ruby maintains perfect readability and an impeccable feel, making it ideal for close-up and parlor magic. It brings a strong yet elegant visual presence that enhances routines without overpowering them.

Cardists will appreciate the contrast and metallic reflections that accentuate movement, adding depth to fans, spreads, and the smoothest sequences.

As for collectors, this deck stands out as a piece of choice: a carefully refined standard where restraint meets prestige, naturally earning its place among the most elegant editions.

Bicycle Metallic Ruby is not just a deck of cards : It is a statement of elegance.

FEATURES :
