

# My Favorite Pet by Sergio Ferrer

## Introducing **My Favorite Pet by Sergio Ferrer**

An incredible, fun, and highly interactive mentalism routine for children!

### The Hook

Instead of the magician doing the magic, the kids become the stars! They 'read your mind' to successfully guess your favorite pet.

The routine begins with some fun interaction about the different pets. A child is then asked to call out any number from one to six (100% free choice, no force). The pet located at that specific position is the one selected-for instance, the rabbit.

The envelope, which has been in plain sight from the very beginning, is then opened. There are no suspicious moves; the reveal is clean and direct. Inside, there is only one thing: the exact same solid cardstock silhouette! The children have successfully guessed your favorite pet!

### "My Favorite Pet":

- Mentalism for Kids: A rare and powerful effect that engages their imagination and makes them feel like the ones doing the magic.
- Visual Consistency: Using vibrant pet silhouettes.
- Effortless & Automatic: No sleight of hand; the clever system handles the "magic" for you so you can focus on the performance.
- High Audience Participation: Perfectly designed to talk about animal care, welfare, and fun animal facts.
- Instant Reset: Perform it again immediately for your next group of kids or at your next table.

### Features

:

- Not always the same pet
- Always in sight: The envelope remains visible throughout the entire

routine.

- No suspicious moves: No magnets, no flaps, no switches, no st.
- Nothing else is hidden in the envelope: It's a single piece of solid cardstock.
- Packs small, plays big: Fits in your pocket, but the routine is strong enough for any parlor or birthday show.
- Ready to Present: No complex setup. Just grab your envelope and silhouettes, and you are ready to go!

## **What you get**

:

- A set of high-quality pet silhouettes professionally printed and die-cut on durable cardstock.
- The prediction
- An ungimmicked envelope.
- Multiple presentations, extra routines, and alternative finales included in online instructions.
