

Special Disappearing Dice by Tora Magic

A mysterious trick that will leave everyone speechless!

The magician displays a large black die (9 x 9 inches) set on a pedestal and turns it to show all sides. A "cover" with plexiglass walls is placed over the large black die.

The audience can still clearly see the die through the windowed walls.

A scarf is placed on top, hiding the die. 1-2-3-BOOM! The magician removes the scarf and the large black die has vanished! In its place, there will now be a plush toy or something else!

- Very easy to perform.
- Produced and designed by Tora Magic Company.
- Attention to detail is evident in the black vinyl-covered base, which prevents stains and allows for quick and easy cleaning, especially if you use animals.
