

PITATA Inversion Board (Whiteboard version) - Bühnentrück

The original PITATA Inversion Board was one of Pitata's most popular releases; however, many wanted a cleaner, more contemporary option. Finally, after careful development, we're excited to present: The PITATA Inversion Board (Whiteboard version).

The original PITATA blackboard version is loved for its classic, rustic, and slightly mysterious feel—ideal for theatrical performances and atmospheric presentations. The new whiteboard version, however, offers a clean, modern, and understated look, similar to what you'd find in a corporate boardroom, classroom, or professional presentation setting.

This makes the PITATA Inversion Board (Whiteboard version) ideal for users who want the same core functionality and full PITATA ecosystem integration in a more neutral, contemporary visual style that blends seamlessly into modern environments.
