

Ash and Ember Silver Curved Size 11 (2 Rings) by Zach Heath

In magic there are few things more visually striking than the visible changing of an object. Ash & Ember delivers the world's first color changing finger ring. Nothing like it has ever been seen in magic until now.

Take your black ring off, and with a slight blow the color shifts from ash black to a burning, ember gold at your fingertips. Or reverse the colors for a jolting gold to black change. Perform completely open, with no cover. Hand out the ring for inspection and watch them gasp in awe.

It's the epitome of "packs small, plays big" opener. This is an incredibly powerful attention getter like no other that you will wear everywhere.

The Ash & Ember ring was engineered by Zach Heath, Jason Brumbalow and a team of experienced ring designers to deliver a flawless moment, with durability to last thousands of performances.

Simple, elegant and shocking. All the makings of great magic.
