

Room One X Butterfly Present Butterfly Try All (300G) - Pokerdeck

In August 2025, we launched a unique project in the playing card community, the **Butterfly Try-All** set. It is a set of three identical-looking decks of cards. The goal for this was to let playing card enthusiasts try out different stocks, feel them, and find their favorite. The voting is now closed, and the winner has been chosen. It is the **300gsm Elite** stock.

If you enjoyed this deck the most in the sets, or if you didn't want to purchase the whole set, now is your chance to try the **300gsm Elite** stock by Room One and collaborated with Butterfly on this project.

The cards have a minimalist yet vibrant and symmetrical back design. The back design provides the advantages of both bordered and borderless designs. We kept the faces standard so you can use these cards for magic. The colorful back design looks great in flourishes and cardistry as well.

Each deck comes with two identical Jokers, giving you a duplicate straight out of the box.
