

Flexible Mirror

Show the audience a framed mirror: everyone can see it's a real mirror, solid, perfectly normal. Then the impossible happens...

Slip the mirror into a bag, take a large pin, and push it straight through the mirror's surface! And that's not all: somehow, you'll even bend the mirror.

A brief moment of silence. Then you pull it out of the bag... flawless, with no damage at all!

Perfect for parlor and stage magic, this effect is highly visual and also easy to perform.

The set includes:

- Framed mirror.
- Black bag.
- Pin.
