

Stranger Things Hive Mind Special Edition by theory11

Introducing Nextflix's **Stranger Things - Hive Mind Special Edition**

A new special edition, where the vines of the Mind Flayer's hive mind have fully taken over!

The Hive Mind

Fear the Upside Down

The outer packaging has fully been taken over by the Mind Flayer! Featuring holographic foils and detailed embossing of the vines themselves, you'll feel like you're being taken into the Upside Down. There's a hidden mystery held within the cards, if you dare search.

Beware The Mind Flayer

Lost in time in the midst of the Upside Down, the Stranger Things deck has been left sitting in desolation, slowly being aged and distressed as the Mind Flayer fully takes control and drains the life out of each card. With the series finale at hand, relive all of your favorite moments from the series with your favorite characters in the palm of your hand before it's too late!

Think You Can Escape?

A Hidden Mystery Lies Within

The gang has included a mystery from the Rightside Up if you're willing to decipher it and escape the grasp of the Mind Flayer. Join them as they battle not only the Mind Flayer, but Demogorgons, Vecna, and whatever else that's been brewing over at Hawkins National Laboratory.
