Introducing **Accident** by Liang Kuai & Amor Magic

A Surprising Encounter with Joker & Mr. K

What truly touches an audience isn't always advanced sleight-of-hand, but the perfect blend of pacing and humor. Accident is a cleverly structured interactive comedy routine that delivers wonder-followed by an unexpected and hilarious twist.

The magician shows two playing cards (Big Joker & Little Joker) and a coin, demonstrating how the coin vanishes and travels between the cards. When the spectator tries it themselves, the "magic" suddenly stops working. Just as everyone wonders what went wrong, the cards are turned over: the Little Joker has disappeared, leaving only a bicycle on his card... while on the Big Joker's card, the Little Joker is now clinging tightly to the Big Joker, exchanging an awkward glance.

(The Mr. K version features the Queen being "pulled" behind Mr. K.)
